Memo

Just over twenty years ago the state of South Dakota recognized the economic development potential that would emerge if resources were directed toward developing a highly educated information technology workforce. To this end, Dakota State University in Madison, South Dakota, reinvented itself from primarily a teacher education college to a recognized leader in the education of IT professionals. Students can choose from a number of undergraduate and graduate IT programs and starting in the Fall of 2006, a Doctor of Science in Information Systems.

Innovative and challenging academic programs - Every one of DSU's majors provide students with a foundation in technology. They can study in the fields of computer information systems and computer science, business, teacher education, arts and sciences with a number of unique degree programs including scientific forensic technology, digital arts and design or computer and network security.

Technology focused - Dakota State's campus-wide, wireless network is the perfect backdrop for our technology-infused courses. Each student is issued a convertible notebook computer to enhance this extraordinary learning experience. It's a powerful tool that changes the way they live and learn on campus and provides them with a distinctive set of skills to take out into today's workforce.
